The pond was a world of wonder for our class! We explored beavers, frogs, turtles, and dragonflies. The children enjoyed a video on frogs that showed the largest and the smallest frog!

Letter Tt has a fun song about Tina tap dancing we tapped and shuffled through it!

Rectangles were fun to make with sticks!

As we learn about fire safety, the children will learn about smoke detectors and how families need a meeting place outside the house. If you have not discussed this, your little one may want to! We will practice a fire drill as a class. Sometime this month the fire department will be coming out, pulling the fire alarm and the entire building will be practicing a fire drill. We reinforce it is just a practice!!
